Projects

Online Shop (www.aminamani.net/r/java)
Shopping cart and control panel for an online shop, built with JAVA, Spring, Hibernate, MySQL & JavaScript. Users can browse the shop and add or remove items to their cart. Administrators can view, edit, and remove users and products.

Quiz Web Application (www.aminamani.net/r/react1)
An interactive web application for taking online quizzes, built with ReactJS, a third-party OAuth provider (Auth0) and a PHP/MySQL API. The main page is publicly available, while the quiz pages require the user to log in. The admin page is only available to those users with a role of "Admin".

Experience

2020-11 – 2021-01	**Full Stack Developer Intern** *Axiom Solutions Inc. Canada*

- Participated in the planning and design of the Progressive Web Application, including the database structure,
